This follows the adventures of Richard B. Riddick as he tries to escape capture after the events depicted in the 2000 film *Pitch Black*. Vin Diesel reprises his role as Riddick and serves as a producer. This is the first and so far the only film in the franchise that received a PG-13 rating. The film received negative reviews and became a box office failure. Hiding from bounty hunters and mercenaries for five years, Riddick reunites with his old friends Imam and Jack. But when he finds himself in conflict with an evil galactic army known as necromongers, Riddick is forced to fight when he tries to stop necromongers from destroying the planet Helion Prime and save humanity and the universe from destruction. Plot Five years after escaping from the dark planet, Riddick was underground, dodging bounty hunters and mercenaries sent to capture him. After killing a crew led by a mercenary Tumbs and stealing his ship on the planet U.V., he heads to New Mecca on the planet Helion Prime in the Helion system, after Tumbs reveals that his reward originated there. Riddick was reunited with the Imam, the man he saved in the first film. The Imam believes that Riddick is a furian, a member of a race of warriors who have long been extinct, and wants to know about his native world, and if someone but himself stays. The Imam believes that Helion Prime is the next planet to be conquered by a mysterious force, the *Cruising Through the Stars*. Aereon, Air Elementary, defines the army as Necromongers, religious fanatics who seek to transform all human life and kill those who refuse. Necromongers attack and take control of the capital overnight. In battle, the imam is killed, and Riddick escapes. The next day, necrominger's high priest, the Cleaner, forces the population to transform, with the exception of Riddick, who kills the imam. Intrigued, the leader of the Necromongers, Lord Marshal, orders Riddick to be scanned by quasi-dead telepaths, who determine that he is indeed a survivor of Furian. Lord Marshall orders Riddick's death, but Riddick only runs away Toombs. Riddick is taken to the Crematorium, a harsh underground prison companion, where Jack, the girl Riddick, is also located. Lord Marshal sends Commander Waako to track down Riddick. Vaako's wife speaks to Ereon, who says that Furya was devastated by the Lord Marshal after he was told that a child from this planet would kill him. Dame Waako and her husband determine that Lord Marshall wants Riddick's death, as he may be the child of this prophecy. At the Crematorium, a row erupts between Toombs and the prison warden over what Tumbs should do for Riddick's award. The word about necromongers came to the prison guard, who concludes that Tumbs stole riddick from them. Meanwhile, in prison Riddick finds Jack, now named Kira, and they put up with each other. Guards kill louny hunters, with the exception of Tumbs, take money for a reward and prepare to leave before the arrival of necromongers. Leaving Tumbs in a prison cell, Riddick escapes from prison and leads several inmates through the volcanic surface of the Crematorium to steal the ship. The guards reach the hangar, just as the inmates arrive to find the Necromongers cornered there. All the guards and prisoners are dead, and Riddick is incapacitated by Waaco. As the sun approaches, Vaaco leaves Riddick to die, and Kira is captured by necromongers. Riddick was rescued by the Cleaner, who tells him that if he stays away from the Necromongers, the Lord Marshal promises not to hunt him down. The cleaner then reveals that he too is furian, and he urges Riddick to kill the Lord Marshal before committing suicide, to go out in the scorching heat. Riddick then flies back to Helion Prime with the help of the Tumbas spacecraft. Meanwhile, Waaco reports on Riddick's death and has been promoted to a higher rank by Lord Marshal. Riddick enters the main hall on the flagship Of the Necromongers, where Dame Waako sees him, but urges her husband not to warn the Lord Marshal and allow Riddick to strike first and pave the way for Waaco to kill Lord Marshall and take his place as leader. When Riddick attacks, the Lord Marshal introduces Kira, who appears to have been converted. Riddick fights the Lord Marshal in front of his army, who holds the upper hand over his supernatural powers. When it turns out that Riddick was about to be killed, Cyrus hit the Lord Marshal in the back with a spear, and he hit her in a pole of spikes, fatally wounding her. Vaaco tries to strike the wounded Lord Marshal, who uses his powers to avoid being hit, but is stopped by Riddick, who uses this opportunity and quickly kills him. Keira dies in Riddick's arms shortly before necromongers, including Waaco, kneel before Riddick as their new leader. Starring Vin Diesel starring Richard B. Riddick Colm Feore as Lord Marshal Keith David as Imam Alexa Davalos as Jack/Kira Karl Urban as Waaco Thandy Newton as Dame Waako Judi Dench as Aereon Nick Chinlund as Toombs Roach as the cleaner Yorick van as Guv Kim Hawthorne as Lajun Christina Cox as Eva Logan Alexis Llewellyn as Peter Williams as the condemned release there are three versions of the film: the theatrical cut, which was PG-13, A Cut Director who has no bets (both first and second are available on DVD); and the third version, a mix of two assembled to watch TV, which has some, but not all, of the added frames from the director's Cut. For example, a minor plot in the director's cut of Riddick's visions, as well as his moments with the second commander of Tumbs, both are absent, but the ending from the director Cut is present.
